Hope Presbyterian, Memphis, Tennessee

We'll soon begin work on a redesign of Hope Presbyterian's small group site. It's easy to get lost in a church as large as Hope. One way Hope addresses this issue is through small groups. Their current small group site no longer meets the needs of Hope Presbyterian or its small group leaders.

A few of the requirements for the redesign are:

- Provide an integrated small group finder loaded with features that make it easier for members to find a small group with similar interests in their area of town.
- Provide tools to help small group leaders keep in touch with their group members, record attendance, etc.
- Provide the capability to offer educational material for both members and leaders.
